

A smart, new “pay-as-you-go”
Workers Compensation
billing option for your business

You're on the go with the day-to-day operation of your business. That's why Utica National's convenient new Right Pay Workers Compensation billing is right for you!

This “pay as you go” option helps take the hassle out of paying for your Workers Comp coverage, making it easy for you to go on about your business, because it allows you to make smaller, more frequent premium payments. And those payments are based on actual payroll, not estimates, reported by you or your payroll company.

That's a smart billing option that's easy, fast and right for your business ... here's how:

Easy

- There's an option for every business! Payroll can be reported by you or by a certified payroll company for each payroll period.
- Simply contact your Utica National independent agent to get a quote on your Workers Compensation policy.
- Work with your agent to determine what reporting option is right for your business.

Fast

- Once your policy is issued you'll be contacted to set up personalized options.
- All premium payments are made by Electronic Funds Transfer(EFT).
- Advance notification is e-mailed to you prior to each premium payment deduction.
- 24/7 access to premium calculations and payment history at our secure, easy-to-use online portal.

Right

- No large down payment
- Premium is based on actual payroll – no estimates
- Can accommodate any payroll reporting schedule
- Improved cash-flow
- Minimizes audit surprises

Plus, on top of the ease and convenience of “pay-as-you-go” billing, you'll get the solid protection and service of your “go to” team — the Utica National Insurance Group and our agency!
