

# Utica National's School Emergency Preparedness Program

## Critical Resources to Help Improve School Safety

The member companies of the Utica National Insurance Group have been providing coverages as well as services to help schools keep students and staff safe for over 45 years, but there's never been a greater focus on school safety than there is today. One of the many ways to prevent school violence is to better understand the threats that schools currently face. Statistics show that 95% of school attacks are carried out by students from the school; therefore, it's essential for the school to have a preparedness plan in place.

The Educational Institutions team at Utica National has partnered with CLPS Consultancy Group to offer an Emergency Preparedness Program to all insureds at a discounted cost of **\$1,750** annually, **a savings of \$250** if purchased as a package. The Emergency Preparedness Program consists of practical and research-based programs that will help assist school officials with critical training, planning, and communication for students and staff to cultivate the safest school environment possible.

The state-of-the-art computer-based digital training courses and risk management programs are built on three pillars of school safety — **Preparedness, Prevention, and Protection** — and consist of:

### PREPARE

**Emergency Management Plan Software** allows schools to easily develop and maintain their emergency response plans. It is designed to ensure compliance with the state standards and document drills and training while collaborating with key stakeholders. (\$750 if purchased separately)

### PREVENT

**Threat Assessment Training and Software, at no additional cost**, which allows schools to efficiently conduct threat assessment inquiries on students that make indirect or veiled threats of violence or exhibit concerning behaviors. This is done by gathering objective data through a series of 13 standardized interview questions and using a quantitative algorithm to provide a risk-level calculation.

### PROTECT

#### TAP App (\$1,250 if purchased separately)

- a. **TAP App Security mobile app** allows for real-time communication between school administrators, staff, and key stakeholders during emergency situations.
- b. **TAP App Student** is an anonymous reporting tool that gives students a voice to stand up for themselves and their peers without risk of reprisal, while providing adequate assistance to students in need and allowing schools to respond for early intervention in an effort to safeguard the school.

#### Bullying Assessment Training and Software

**At no additional cost**, this web-based software allows schools to efficiently conduct bullying intervention assessments for incidents of reported bullying at school.

## SCHOOL EMERGENCY PREPAREDNESS PROGRAM

All Utica National school policyholders will be offered the **Utica National School Emergency Preparedness Program** as part of our **Risk Management Services** for **\$1,750!**
