

# Utica National's School Emergency Preparedness Program

There's never been a greater focus on school safety than there is today. One of the many ways to help prevent school violence is to better understand the threats schools currently face.

Statistics show that 95% of school attacks are carried out by students from the school; therefore, it's essential for schools to have early intervention and threat management plans in place.

The Educational Institutions team at Utica National has partnered with CLPS Consultancy Group to offer tools that can help students and staff cultivate a safe school environment, including:

## Part I: School Threat Management & Early Intervention Program
